

| Aluminium base materials, the alloy designation, their application | | | | | | |
|--|------------|---|--|--|--|--|
| International registration | Alloy | Typical applications | | | | |
| 1070, | Al99,7 | Body panels for tanks used for chemical and food industry, dairy industry, | | | | |
| 1200 | Al99,0 | breweries, packaging industry, household appliances, electronic industry | | | | |
| 3103 | AlMn1 | Buildings, heat exchangers, roof coverings | | | | |
| 5052, | AlMg2,5 | Tanks, body panels and construction in contact with seawater and -air | | | | |
| 5251 | AlMg2Mn0,3 | | | | | |
| 5083 | AlMg4,5Mn | Shipbuilding, tanks and tubes for transportation liquid gases, armour plate | | | | |
| 5086 | AlMg4Mn | Shipbuilding and car bodies | | | | |
| 5454 | AIMg2,7Mn | Shipbuilding, car bodies, transportation industry | | | | |
| 6005A | AIMgSi0,7 | General construction grade, roof constructions, light poles, pipelines | | | | |
| 6060, | AIMgSi0,5 | Building materials, windows, doors | | | | |
| 6063 | | | | | | |
| 6061 | AlMg1SiCu | General construction grade for dynamic stressed constructions, bridges | | | | |
| 6082 | AlMgSi1 | Car body industry | | | | |
| 7020 | AlZn4,5Mg1 | Non-marine applications, cars, armour plate | | | | |

| No. | HILCO | AWS Spec. | Werkstoffnr. | Available as | | | | |
